

Better support for francophone caregivers across Canada.

A partnership between **L'Appui** and the **Canadian Centre for Caregiving Excellence** to build bridges with key stakeholders in caregiving in Canada.

Project Objective

To establish the foundations of a pan-Canadian network of organizations concerned with the quality of life of Francophone caregivers outside Quebec.

L'Appui reached out to organizations that support francophone caregivers to better understand their needs.

Challenges and Needs Identified

- Better serving the Francophone community

« We would like to have better visibility of our services in French. We know that Francophones are underserved, and we

- Creating French resources for Francophone caregivers outside Quebec

- Raising awareness of existing resources

- Networking and creating links between organizations

« It's important for the various organizations across Canada to communicate with each other, to know what resources are available in French. »

The benefits of creating a pan-Canadian French network in caregiving include:

- 1 Sharing best knowledge and practices
- 2 Collaborating and creating partnerships
- 3 Contributing to raising awareness
- 4 Networking with involved organizations
- 5 Knowing available resources
- 6 Developing innovative initiatives

Next steps:

Develop a coordinated action plan

Build the ecosystem and collaborative structure

Together, let's continue to improve the support available to caregivers.
